## Summary

Dedicated and detail-oriented Full-Stack Web Developer with a background in computer science engineering. Proficient in Laravel, PHP, and JavaScript, with experience in developing secure and scalable web applications. Successfully completed an internship in Japan, contributing to database management, role-based authentication, and job platform development. Passionate about problem-solving, backend optimizations, and web security, with a continuous drive to learn and grow in a professional environment.

## Education

### Eastern University

Bachelor of Science in Computer Science and Engineering

January 2020 – January 2024

Dhaka, Bangladesh

## Experience

### Fiverr

Freelancer

May 2022 – August 2023

Remote

- Built and customized WordPress sites, themes, and plugins for diverse clients.
- Developed secure backend solutions using PHP, Laravel, and MySQL.
- Delivered high-quality projects, optimizing functionality and performance.

### Othello Financial Services Co., Ltd.

Junior Web Developer

June 2024 – November 2024

Hyogo Prefecture, Japan

- Built feature-rich, scalable web applications using modern frameworks.
- Utilized frameworks like Laravel, and React to enhance performance and user experience.
- Handled both frontend and backend development, integrating APIs, databases, and authentication systems.

## Projects

### Global Plus - Job Portal | PHP, Laravel, JQuery, MySQL, Bootstrap

July 2024

- Designed and implemented admin and user panels for job management
- Integrated Jetstream authentication for secure user access
- Automated resume generation and data import/export functionalities

### Student billing & Apartment Management system | PHP, Laravel, JQuery, MySQL, Bootstrap

September 2024

- Built an admin panel with role-based authentication using Jetstream.
- Enabled English-Japanese translation and automated billing generation.
- Developed database backup and user activity monitoring features
- Developed fiscal year-based apartment billing generation with real-time calculations.

### Student Database Management System | PHP, Laravel, JQuery, AJAX, MySQL, Bootstrap

November 2024

- Created a student database with CRUD operations and AJAX optimization.
- Implemented role-based authentication for secure user access.
- Developed user activity tracking for monitoring system changes.

### Multivendor E-Commerce Website | PHP, Laravel, JQuery, AJAX, MySQL, Bootstrap

November 2024

- Developed a multivendor platform with product listing and cart functionality.
- Integrated API-based payment gateway and order processing system.
- Implemented role-based access control for vendors, admins, and customers.
